FLORIDA HURRICANE.

Much Damage to Property, With Loss of Life.

It is Estimated That Half the Orange Crop Around Tampa and One-Fourth on the East Coast Has Been Cut Off.

Jacksonville, Fla., Sept. 14.—Beginning Friday morning on the east coast and extending 24 hours, South Florida has been swept by the strongest hurricane known in that part of the state. The wires went down at the beginning and railroad service was delayed. On that account no details reached here until Sunday. Even now they are incomplete.

Jacksonville, Fla., Sept. 15.—The wires south of Palm Beach and Tampa are still down and will not be in operation for a day or two. Further details of the destruction wrought by the hurricane have been received by mail and passengers on the morning train. The steamer Ingham, of Liverpool, owned by the Ingham Shipping Co., from Galveston, lumber and cotton seed meal, for Hampton Roads, was ashore near Hoyo de la Florida night. The ship's steering gear broke and she floated at will, striking the beach with great force and breaking into three pieces. The captain, master and 11 of the crew were saved. Nine were drowned, among them the engineer. The small boat with five men was battered to pieces by the waves and its occupants drowned. The schooner Martha T. Thomas, 750 tons, Capt. Watter, cargo of lumber from Apalachicola for Baltimore, was wrecked nine miles south of Jupiter. The schooner was split in half. The crew were all saved.

Threshers' opera house at Palm Beach was partly roofed off, as were eight other business blocks, which were also damaged in other ways. All the boats on the Lake Worth water front excepting three were wrecked and sunk. Two lives were lost in Tampa by the storm. Louis Harris, a cigarmaker who was struck by the falling cornice of a building, died the next day. T. Y. Hunsicker, a motorman, met his death near the Guesta Key cigar factory. In Ybor City several factories were badly damaged. The property loss at Tampa will reach \$500,000.

It is estimated that half of the orange crop has been cut off around Tampa and one-fourth of the east coast. There are no wires south of Tampa and trains are delayed. What has happened at Punta Gorda, Punta Hueso and others is not known. It is reported that Punta Hueso has been completely washed away, but no communication with the place has yet been received.

Using the timely warning of the weather bureau all shipping remained in the harbor after Friday morning. It is feared that the schooner Eva J. Shenton, which sailed for New Orleans early Friday, has been lost. Much apprehension is also felt for the steamship Johnstone, which is reported to have sailed from Mobile for Tampa last Friday.

Middle and West Florida are entirely cut off from the east coast. A train which left here Monday morning for River Junction could not go further than Greenville. There is no wire connection beyond Griffin. Both these places are approximately 100 miles west of Jacksonville.

Thousands of Cattle Are Freezing on the Northwestern Plains.

Chicago, Sept. 15.—Thousands of cattle and sheep are freezing on the plains of the northwest as the result of an unprecedented heavy snow storm for this season of the year. At Cheyenne, Wyo., the lowest temperature prevails, 48 degrees below the minimum.

Springfield, Ill., Sept. 14.—The ton of the massive porch at the front of the executive mansion was struck by lightning Friday afternoon during a storm. The bolt of lightning was a terrific one, and two great balls of fire seemed to fall from the porch. Gov. Yates thought the porch had caught fire and telephoned for the fire department. The fire marshal and a part of the fire department answered the summons but could find no fire. The bolt of lightning was one of the most terrific ever witnessed here.

SUBMARINE VESSELS.

Pretty and Important Exhibition of Mimic Warfare.

The Torpedo Boat Adzer Succeeded in Torpedoing the Craven—Navy Test a Complete Success in Every Way.

Newport, R. I., Sept. 15.—A pretty exhibition of mimic warfare, important as illustrating the effectiveness of the navy's submarine craft, was given Tuesday off Trenton's Reef lightship when the submarine torpedo boat Adzer succeeded in torpedoing the torpedo boat Craven. So stealthily did the Adzer creep upon the Craven that the wooden torpedo boat was not aware of her presence until she was within range of her guns. The Adzer then fired a shot which struck the Craven in the bow, below the waterline, and the torpedo boat was disabled. The crew of the Craven were rescued and the Adzer returned to her base.

The sham fight Tuesday was a continuation of the program which was begun some days ago as a test of the submarine boat and was a success in every way as far as the type was concerned. The Craven left the torpedo station during the forenoon and running down the harbor cruised about Trenton's Reef lightship awaiting the attack. The Adzer, instead of following immediately waited an hour in order to get the crew of the Craven off their guard. As soon as Fort Adams was cleared the submarine boat plunged beneath the surface and remained for 45 minutes, during which time officers and men enjoyed lunch without inconvenience. On getting outside the harbor the Adzer was once more sent to the surface, but only her conning tower was exposed. The Craven was sighted a short distance outside the lightship, riding unconcernedly on an easy swell.

The Adzer again plunged and when within 200 yards of the Craven a wooden torpedo in shape and size of a regular projectile was fired. The shot was a good one and the torpedo struck the Craven amidships with considerable force, sufficient to perceptibly jar the boat. The crew of the Craven was unable to reach the guns in time to fire a shot. The Adzer then came to the surface and after one or two more dives the two boats returned to the torpedo station.

SNOW FLURRIES IN NEBRASKA.

At Midnight the Temperature Was Down to Freezing Point.

Lincoln, Neb., Sept. 15.—With a clear sky at midnight and temperature down to the point of frost, vegetation in Nebraska was being slightly nipped Tuesday night. The weather, however, is not cold enough in Eastern Nebraska to materially damage corn, much of which is late and needs many days of sunshine. There were light snow flurries Tuesday in the northwestern part of the state.

Omaha, Neb., Sept. 15.—Reports from 50 of the 70 counties in the corn belt of Nebraska, received up to midnight, indicate that frost was general in the state Tuesday night. In many localities it is killing, in others light crop damage estimates place the damage to corn at 25 per cent.

EXPLOSION IN THE BASEMENT.

Broadway National Bank Building Guttered By Fire.

New York, Sept. 15.—The Broadway National Bank building at No. 327 Broadway, corner of Park place, was gutted by fire early Wednesday morning. At 2 o'clock there was an explosion in the basement from some unknown cause and the fire immediately followed the elevator shaft to the roof. The whole interior of the ten-story building was soon ablaze, but the prompt work of the fire department prevented the spread of the flames to adjoining buildings. The structure was one of the oldest in its neighborhood. The Broadway national bank had moved to new quarters several weeks ago.

A GENERAL UPRISING.

An Insurrection in the Vilayet of Salonica.

Alleged That the First Three Divisions of the Bulgarian Army at Philippopolis, Sofia and Silivnac Were Called Out.

Salonica, European Turkey, Sept. 16.—A general insurrection in the vilayet of Salonica, east of the Vardar river, is announced to have begun Monday. The region is divided into eight districts, each commanded by a Bulgarian officer. Gen. Zosheff, president of the Macedonian committee, is the commander-in-chief. Sofia, Sept. 15.—No important step is likely to be taken at the present critical juncture, pending the return to the capital of Prince Ferdinand and a reply from the powers or some intimation from them in response to Bulgaria's note.

The air here is filled with rumors of mobilization. It is alleged that the first three divisions of the army, having their centers at Sofia, Philippopolis and Silivnac, have been called out. In official quarters, however, it is declared that the only step actually decided upon is the summoning to colors of the first three divisions, who retired from the army during the last three years. This will give a force of some 10,000 men who will be chiefly employed in strengthening the troops along the frontier.

It is expected that a week will suffice to enable the ministry to judge of the extent to which its final appeal to the powers is likely to prove successful. Doubts are expressed in diplomatic circles, whether the Bulgarian note will bring any decisive results, but there is every disposition to recognize the sincerity of the ministry's attitude and its complete justification for issuing such a document in view of the immense forces that Turkey is gathering in threatening close proximity to the Bulgarian frontier.

More fighting is reported from the vilayet of Monastir. A large body of troops sent to quell the rebels there dispersed the bands scattered there and suffered heavy losses. The Turks also lost many men in a fight near the monastery of Kamikla at Ohrid. It is announced that a detachment of the Turkish army, which was sent to Monastir, to seek a detachment of revolutionaries supposed to be hiding in the building, finding none there, set fire to the monastery and killed the servants and the women.

At Konekiglav, near Losengrad, a city of Turkish infantry and cavalry, manned by a mountain battery, in a three hours' engagement with a detachment of insurgents, the Turks had 20 killed and many wounded.

The Daily Mail understands that the British cabinet Monday resolved on naval co-operation with the powers in near eastern waters, and that British ships will soon appear at Salonica. It is said in Vienna that the representatives of the powers have advised the sultan to withdraw the Bulgarian redifs from Adrianople on account of their lawlessness.

Woodford of New York, overcame the Irish knight on the train en route to Chicago, and when he arrived here he was on the verge of collapse. A carpage waited him at the depot and he was hurriedly driven to the annex, and a physician quickly summoned. Hasty treatment afforded some relief. DEATH OF COL. R. T. JACOB.

He Was a Picturesque Figure During the Civil War.

Louisville, Ky., Sept. 14.—Col. R. T. Jacob, a picturesque figure during the civil war, died at his home in this city Sunday. Col. Jacob was 78 years old, and was widely known as the man who saved Kentucky from secession and also as the captor of Gen. John Morgan.

Col. Jacob's career began with a trip across the plains in 1845. He crossed in time to join Fremont's command for service during the Mexican war. Returning to Kentucky he was elected to the legislature as a democrat. The secession question came before the legislature and Col. Jacob created surprise by refusing to vote with the Breckinridge party, his vote giving a plurality of one for the unionists against secession. When active hostilities opened Col. Jacob organized the 9th Kentucky (union) cavalry. He participated in the smashing of Morgan's raid, and it was to Col. Jacob and his command that the confederate leader and a number of his followers surrendered. Near the close of the war Col. Jacob became lieutenant governor of Kentucky.

Col. Jacob's wife, Sarah Benton, daughter of Thomas H. Benton, died many years ago.

He had been sick for a month with what the doctors called bilious dysentery, and could get nothing to do him good until he tried this remedy. It gave him immediate relief," says B. L. Byer, merchant, Hancock, Md. For sale by Day Bros. Co.

Mrs. Laura S. Webb,
Vice-President Woman's Democratic Club of Northern Ohio.
"I dreaded the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain, and I shall take it off and on now until I have passed the change of life. Female weakness, disordered menses, falling of the womb and ovarian troubles do not wear off. They follow a woman to the change of life. Do not wait but take Wine of Cardui now and avoid the trouble. Wine of Cardui never fails to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in danger. When you come to the change of life Mrs. Webb's letter will mean more to you than it does now. But you may now avoid the suffering she endured. Druggists sell all bottles of Wine of Cardui."
